AN ANNUAL INSPECTION

Of the Woman's Relief Corps of East Liverpool.

DEEPLY INTERESTING SESSION

The Department Inspector Delivered an Address Teeming With Telling Points. Description of the Madison Home For Soldiers' Widows.

The members of General Lyon Relief corps, auxiliary to the Grand Army post, were given a treat yesterday afternoon which they will long remember with the deepest pleasure. Department Inspector Mrs. Alice C. Whittaker, is making a grand tour of inspection throughout her department, and she was yesterday accompanied by Mrs. John S. McNutt, of Wellsville, the latter lady being assistant department inspector.

Mrs. Whittaker opened her remarks with a vivid description of the Soldiers' home, Sandusky, where there are now some 1,400 veterans domiciled, and where they receive the very best treatment. The inspector spoke of visiting this home on one occasion and indulging in pleasant chat with the veterans, when a comrade who had lost his sight by a bullet passing immediately in front of his eyes, the same bullet impairing his mind, cried out, "Mother, dear, won't you bring me a drink of water?" The blind comrade imagined it was his own dear mother whose voice he heard, and the speaker told, in tones of deep pathos, how the question had broken her all up, and caused her to have heartfelt sympathy for the brave lad who had given so much for his beloved country.

Speaking of the necessary outlay connected with this home, the lady said that 75 glasses of jelly and 50 cans of peaches were consumed at a single meal at the hospital connected with the home, while 150 glasses of jelly were consumed at the home proper at a Thanksgiving dinner.

Mrs. Whittaker gave a short sketch of her visit to the Soldiers' Orphan home at Xenia, where there are now assembled some 900 children, receiving the very best of treatment, and as happy as little ones can be made under existing circumstances.

Then came an account of the Madison home for soldiers' widows. There are 60 widows at the home at present writing, and three veterans and their wives. There is no appropriation on the part of the state for this home, it being sustained by the per capita tax assessed upon the various relief corps of the state. Mrs. Whittaker spoke in glowing terms of this home and its excellent management. Some of the older ladies are now unable to go to church, and a movement has been started looking to the securing of a neat vehicle and safe roadsters to overcome this difficulty. When Mrs. Whittaker visited the Sandusky home, she found that the veterans had nobly subscribed \$35 to this fund, to be deducted from their pension money. When this incident was related by the department inspector in the presence of the Cleveland Relief corps, the members gave \$10 and Canton Relief corps gave \$5. Mrs. Whittaker took dinner at the Madison home, and told the soldiers' widows of what had been done, and the ladies responded with earnest applause and hand clapping. The inspector related a number of deeply interesting and pathetic incidents connected with her work in visiting the various homes, and her auditors gave her the very closest attention, crowding to the platform and earnestly thanking her for her splendid effort at the close of her remarks.

Mrs. McNutt read a very interesting paper, descriptive of relief work in the department. It was listened to with rapt attention, and the local members gained much needed information through its medium. Mrs. Martha McKinnon, President of General Lyon corps, made a happy speech, urging the members of the local corps to renewed effort in the good and grand work of assisting the veterans, their widows and orphans. She urged that the children of this community be given object lessons upon the theme of patriotism and loyalty, and that they be taught to revere Old Glory and the principles it represents.

The following visitors from other points participated in the pleasures of the evening: Mrs. G. B. Aten, Mrs. J. C. Catlett, Mrs. L. Apple, Wellsville, and Mrs. Leming, of Marietta.

At the conclusion of Mrs. Whittaker's address, the lady was given a rising vote of thanks. Afterward, at the adjournment of the meeting, members of the local corps were heard to remark that they had learned a valuable lesson, and that they had hitherto had but a remote

idea of the grand work which the Woman's Relief corps has been doing in the land, under the blessing of the Master and through the earnest efforts of the noble women connected with the splendid organization.

HOW POTTS VIEWS IT.

He Wants No Betrayers in the Democratic Party.

The Lisbon Patriot, in commenting on the report that leading gold Democrats of the district would soon hold a conference, says:

"Well, that is refreshing news. These fellows, every mother's son of them, voted for McKinley. What right have they to tamper with the Democratic party? They are Judases of the meanest type, and Democrats hate betrayers. They are now with the gold bugs, and they had better stay there. As for Jimmie Deidrick, he has neither friends, money, brains nor character. Take away the brass in his face and the conceit in his soul, and you have left an empty nothing."

THE RECEPTION.

It Was a Pleasant Affair and Largely Attended.

Almost 100 persons were present at the reception given the board of education and the teachers in Central building last evening by the senior class of the high school, and it was a delightful affair. Lunch was served at 10:30, and brief addresses were made by Mr. McGraw, Mrs. Watson, Mr. Vorey, Mr. McClain, Mr. Stevenson, Mr. Murphy, Mr. Swan and Doctor Norris, the speakers being introduced by Miss Laura Colclough, the class president. The building was tastefully decorated, and the young ladies of the class were brilliant in their dresses of red.

LOCATED A WELL.

Another Well Be Drilled on the Conkle Farm.

O. H. Hulings was in the Hookstown oil field yesterday afternoon locating another well on the Conkle farm. Drilling will be started next week, and it is thought a few weeks will see the bit in the sand. The company will on Monday shoot one of the wells it has been pumping. The well that came in last week has been cleaned, and is making in the neighborhood of 20 barrels a day. Mr. Hulings and J. E. McDonald will test another piece of territory they have on the other side of Hookstown.

RECOGNIZED.

Jeannette Wants Stanway and Hernan For Thanksgiving.

Ernest Ferrell, manager of the Rovers, yesterday afternoon received a letter from Manager McManus, of the Jeannette club, asking him to use his influence in persuading Stanway and Hernan to play with their team on Thanksgiving day, when they meet the McDonald's for the cup tie. This is a tribute to the skill of the players, as the Jeannette team on that day will be composed of the best men to be secured. Jeannette has also been booked for a return game on Christmas day.

A NUISANCE.

The Police Should Break Up An Annoying Practice.

The small boys, who infest Sixth street every time a performance is given at the Grand, should be given the attention of the police. Pedestrians are besieged on every hand, and requests for loans of small amounts are as numerous as boys. They want from a cent to nine, and are so persistent in their requests as to annoy every one. This is not allowed in other towns, and there is no excuse for its existence here. The practice should be broken up if it compels the arrest of every boy.

NO COONS FOR THEM

A Hunting Party Came Home In the Rain.

ONE WAGON WHEEL WENT DOWN

They Borrowed Another, and Struggled Along the Muddy Road Until Almost Daylight—The Woes of the Expedition Only Ended When They Got Home.

Before Billy Davidson and his friends go coon hunting again they will provide themselves with full and complete predictions from the signal service and look more carefully to the running gear of their wagon.

There were eight in the jolly party which drove along the Calcutta road last night, leaving the city a few minutes before the clock struck 12. They were well provided with dogs and guns, and expected a night of rare sport. As they drove through the country a storm gathered, and when they reached the creek at Little Beaver it was blowing a gale. The situation was canvassed, and a discussion ended in the determination to let the coons run undisturbed for one night. The road was too narrow to permit the wagon being turned, and a delegation of several dejected hunters had to leave their seats, unhitch the horses, and get the vehicle around as best they could. The road was as dark as a pocket, the rain came down in sheets, and the drive home was started under the most unfavorable of circumstances. After a time they wandered from the highway, and collided with the fence. The horses were returned to the road, and greater care exercised. Again they ran into the fence, and this time with disastrous results. A wheel collapsed. It was not a slight injury, but a serious one. Spokes, hub and tire were a mingled mass of ruin, and the axle was on the ground. Here is where the superior ability of the leader appeared. He knew the farmers of that vicinity, and after climbing on the fence to find just where they were started for the nearest farm house. It was deemed unwise to disturb the peaceful slumbers of the farmer, and they quietly removed a wheel from his wagon. It was carried with difficulty across the fields, and made to do the duty of the broken wheel. The remainder of the journey was without particular accident, but it was almost daylight before the party, wet and weary, reached home. The wheel was returned to its owner this morning.

THE NEW BOARD.

Trustees Were Elected by the Association Last Night.

A general meeting of the members of the Young Men's Christian association was held last evening, and in accordance with a recent change in the constitution, the association will be governed in the future by trustees instead of directors. It was decided to limit the number to 15, and the following gentlemen were elected: A. H. Bulger, C. L. Gray, W. A. Weaver, C. T. Hard, Dr. J. C. Taggart, J. M. Manor, Daniel Ogilvie, O. C. Vorey, J. D. Clements, Proctor Ankrim and Charles Bowman. The former board of trustees, composed of G. L. Matheny, F. H. Croxall, Enoch Elden and S. T. Herbert, were continued in office. There were not enough members of the newly elected trustees present to organize, and they will meet the early part of next week and elect officers.

AN UGLY CUT

Caused by the Carelessness of School Boys.

Emma Amos, a nine-year-old pupil of the Central building, suffered an injury yesterday, through the carelessness of several small boys.

The primary grades had been dismissed and the youngsters rushed for the street. The little girl was in the crowd, and was thrown against the gate as she passed out. Her head came in violent contact with an iron bar, and a nasty cut over the right eye was the result. She was taken to her home on Walnut street, and a physician summoned. The little one suffered great pain, but is better today. Mrs. Amos complained to Superintendent Sanor of the roughness of the boys.

OBEYED THE COMPANY.

The Tong Gang Say There Were Not Driven From the Field.

The tong gang of the Ohio Valley Gas company deny the statement that they were driven from the Stevenson farm Thursday morning, but say they were ordered by the company to cease work until the trouble was settled. Although four men stood guard over them with shotguns J. E. Dowden, the timekeeper,

and Bob Walters started to dig, and the guards did not shoot, they say. The tong gang say they would have removed the pipes in spite of all obstruction had the company not issued the order to stop work.

GAVE BOND.

James Orin Was Released From Jail This Morning.

Lisbon, Nov. 21.—[Special]—Some friend of James Orin gave the \$1,000 bond required by the court, and he was released this afternoon. The bond was given through the First National bank. Judge Robinson last evening dismissed the jury until Nov. 30. There will be no court next week.

The decision in the suit of A. W. Stevenson against the Pioneer pottery was rendered, and the pottery company must pay \$1,000, the value of two bonds held by W. H. Gaylord, of Cleveland.

F. A. Nesley got judgment against Alexander Norris and others for \$8,854, the amount of a note made 16 years ago. A mortgage on land in Yellow Creek will be foreclosed.

Irvin McGee, a Middleton farmer, assigned today. John McVickers, of this place, is assignee.

AN OLD RESIDENT.

J. M. Fisher Passed From Life This Morning.

J. M. Fisher died this morning at the residence of his brother, M. O. Fisher, near Spring Grove cemetery. Deceased was aged 68 years, and had spent all his life on the farm where he died. He was one of the oldest members of the First Presbyterian church, and was respected and esteemed by all who knew him. The funeral will take place from the late residence Tuesday afternoon at 2 o'clock. Doctor Lee officiating. Interment will be made in Spring Grove.

HEAVY CABLES

Are Being Built by Employees of the Telephone Company.

Superintendent of Construction Hall, with a force of linemen, is engaged today in hanging two heavy cables for the telephone company. One cable extends from the exchange in the First National bank building to Robinson and Walnut streets, a distributing point for three sections, and the other is hung above Washington street to Sixth. Each cable contains 100 wires, and will simplify the work of Manager Gilchrist.

A SAENGERFEST.

German Singing Societies Will Be Here in December.

The Liederkranz singing society of this city is in a creditable condition. The members meet twice a week for vocal practice, and are preparing for a saengerfest to be held here sometime during the holidays. Several visiting societies will be present, and will assist in making the occasion a success. Monday evening next the local society will give a dance in Red Men's hall.

A BIG SHIPMENT.

Two Thousand Barrels of Apples Will Go Down the River.

Two thousand barrels of apples will be taken from the wharf this evening by the Virginia. They go to Cincinnati, and from that point will be sent to New Orleans. They are the property of Frank Bagley and Joseph Laughlin who will accompany the cargo. This is the largest shipment of apples from the city in many years.

UNITED ON TURKEY.

The following notice was found this morning tacked to the telephone pole in front of the First U. P. church: "Startling Announcement. The unity of the sex. The Presbyterians, Methodists and United Presbyterians are united on turkey." The notice is printed with a lead pencil, and is evidently the work of the holiness gang.

FATHER WESTERHOLT DEAD.

Rev. Francis Westerholt, pastor of St. Peter's church of Cleveland, died suddenly at his home this morning from an attack of heart disease. Reverend Westerholt is known in this city, and was entertained at dinner by Father Smythe, of St. Aloysius church, several months ago.

LOOKING FOR A MAN.

Constable Bertelle is looking for a young man who is wanted on a serious charge brought against him by a too-confiding young girl of the city. The warrant was sworn out before Squire Morley several days ago. The young man is out of town, but will be arrested as soon as he returns.

RECEIVED ONE, DISCHARGED ONE.

Mrs. William Bolton, Jackson street, was reported this morning to the health officer as suffering from diphtheria. This was the only case reported, and Sanitary Policeman King fumigated the residence of John Shay, Third street.

NOW WILL YOU PLAY

A Challenge From the Crescents of Wellsville.

WILL CLAIM THE CHAMPIONSHIP

Provided the Eclipse Boys Refuse Them a Game on Thanksgiving—The Winner to Get the Big End of the Receipts—An Opinion.

The following was received at this office this morning, and explains itself: To the Eclipse Rugby Football Team, East Liverpool, Ohio.

The football season is drawing near to a close, and you have on several different occasions refused to give us games, for the reason, apparently, that you did not consider us worthy of recognition, and not in your class or standing as a team.

We, however, have played the entire season, and with some of the best teams in the Ohio valley at that, and so far we have not been defeated, and but one team has been able to even score against us, and we consider ourselves your equal if not your superior in every way.

We therefore challenge you to play us a game on Thanksgiving day, Nov. 26, at West End park in your city. The game to consist of at least two 30 minute halves, each team to furnish one official who shall alternate as umpire and referee for each half. The winner to take 80 per cent and the loser 20 per cent of the net gate receipts, and if you refuse to play us we will justly claim the championship of the Ohio valley.

CRESCENT FOOTBALL TEAM, Wellsville, O.

C. R. McGEORGE, Manager. Manager Stevenson was out of the city today, and nothing definite could be obtained, but members of the Eclipse team gave as their opinion that the challenge would be accepted. Wilkinsburg is booked to play here next Thursday, but the game can be cancelled.

THE SOLICITOR'S VIEW.

Doctor Williams Must Care For the Township's Patients.

According to the opinion of Solicitor Grosshans, Doctor Williams must care for diphtheria patients turned over to the township trustees by the board of health.

The question was an outcome of the last meeting of the board of health, and the solicitor prepared his report today after examining the contract signed by Doctor Williams and the trustees. He said:

"There is no doubt in my mind that Doctor Williams is bound to care for all charitable cases in Liverpool township it matters not what the disease may be. The board of health have no right to keep these cases, and their quarantine is only to prevent the spread of contagion. The public is not compelled to pay for one man's affliction. It is the duty of the board to turn these cases over to the trustees, who should investigate. If worthy they should be cared for by the township physician."

FORECLOSED A MORTGAGE.

The Michigan Trust company, of Grand Rapids, foreclosed a mortgage on property owned by Mrs. Rentfrow, of the company playing at the Grand this week. The papers were forwarded to this city, and served on the defendant by W. B. Hill. The property in dispute is situated in Grand Rapids.

BROUGHT FROM SALINEVILLE.

The remains of the late Mrs. Morata Woolmaker were brought here from Salineville on the noon train. The funeral will take place at 10 o'clock Monday morning. Interment will be in the Catholic cemetery.

THE EPWORTH CIRCLE.

The Epworth Reading circle have adopted an excellent course, and will meet twice each month. An instructor will be appointed, and the movement is being pushed with enthusiasm.

GETTING WELL.

W. R. Stevenson, who was the victim of the bridge accident Wednesday, is recovering rapidly from his injuries. His wife is caring for him.

A SUBSCRIPTION.

Reverend Carson, of the African M. E. church, is soliciting subscriptions for Wilberforce university. He is meeting with success.

VERY ILL.

Alexander Moneypenny, of Second street, is suffering from the infirmities of old age, and it is feared that he will not recover.

ONE WAGON WHEEL WENT DOWN

They Borrowed Another, and Struggled Along the Muddy Road Until Almost Daylight—The Woes of the Expedition Only Ended When They Got Home.

Before Billy Davidson and his friends go coon hunting again they will provide themselves with full and complete predictions from the signal service and look more carefully to the running gear of their wagon.

There were eight in the jolly party which drove along the Calcutta road last night, leaving the city a few minutes before the clock struck 12. They were well provided with dogs and guns, and expected a night of rare sport. As they drove through the country a storm gathered, and when they reached the creek at Little Beaver it was blowing a gale. The situation was canvassed, and a discussion ended in the determination to let the coons run undisturbed for one night. The road was too narrow to permit the wagon being turned, and a delegation of several dejected hunters had to leave their seats, unhitch the horses, and get the vehicle around as best they could. The road was as dark as a pocket, the rain came down in sheets, and the drive home was started under the most unfavorable of circumstances. After a time they wandered from the highway, and collided with the fence. The horses were returned to the road, and greater care exercised. Again they ran into the fence, and this time with disastrous results. A wheel collapsed. It was not a slight injury, but a serious one. Spokes, hub and tire were a mingled mass of ruin, and the axle was on the ground. Here is where the superior ability of the leader appeared. He knew the farmers of that vicinity, and after climbing on the fence to find just where they were started for the nearest farm house. It was deemed unwise to disturb the peaceful slumbers of the farmer, and they quietly removed a wheel from his wagon. It was carried with difficulty across the fields, and made to do the duty of the broken wheel. The remainder of the journey was without particular accident, but it was almost daylight before the party, wet and weary, reached home. The wheel was returned to its owner this morning.

THE NEW BOARD.

Trustees Were Elected by the Association Last Night.

A general meeting of the members of the Young Men's Christian association was held last evening, and in accordance with a recent change in the constitution, the association will be governed in the future by trustees instead of directors. It was decided to limit the number to 15, and the following gentlemen were elected: A. H. Bulger, C. L. Gray, W. A. Weaver, C. T. Hard, Dr. J. C. Taggart, J. M. Manor, Daniel Ogilvie, O. C. Vodrey, J. D. Clements, Proctor Ankrim and Charles Bowman. The former board of trustees, composed of G. L. Matheny, F. H. Croxall, Enoch Elden and S. T. Herbert, were continued in office. There were not enough members of the newly elected trustees present to organize, and they will meet the early part of next week and elect officers.

AN UGLY CUT

Caused by the Carelessness of School Boys.

Enma Amos, a nine-year-old pupil of the Central building, suffered an injury yesterday, through the carelessness of several small boys.

The primary grades had been dismissed and the youngsters rushed for the street. The little girl was in the crowd, and was thrown against the gate as she passed out. Her head came in violent contact with an iron bar, and a nasty cut over the right eye was the result. She was taken to her home on Walnut street, and a physician summoned. The little one suffered great pain, but is better today. Mrs. Amos complained to Superintendent Sanor of the roughness of the boys.

OBEYED THE COMPANY.

The Tong Gang Say There Were Not Driven From the Field.

The tong gang of the Ohio Valley Gas company deny the statement that they were driven from the Stevenson farm Thursday morning, but say they were ordered by the company to cease work until the trouble was settled. Although four men stood guard over them with shotguns J. E. Dowden, the timekeeper,

and Bob Walters started to dig, and the guards did not shoot, they say. The tong gang say they would have removed the pipes in spite of all obstruction had the company not issued the order to stop work.

One cable extends from the exchange in the First National bank building to Robinson and Walnut streets, a distributing point for three sections, and the other is hung above Washington street to Sixth. Each cable contains 100 wires, and will simplify the work of Manager Gilchrist.

The following notice was found this morning tacked to the telephone pole in front of the First U. P. church: "Startling Announcement. The unity of the sex. The Presbyterians, Methodists and United Presbyterians are united—on turkey." The notice is printed with a lead pencil, and is evidently the work of the holiness gang.

NOW WILL YOU PLAY

A Challenge From the Crescents of Wellsville.

WILL CLAIM THE CHAMPIONSHIP

Provided the Eclipse Boys Refuse Them a Game on Thanksgiving—The Winner to Get the Big End of the Receipts—An Opinion.

The following was received at this office this morning, and explains itself: To the Eclipse Rugby Football Team, East Liverpool, Ohio.

The football season is drawing near to a close, and you have on several different occasions refused to give us games, for the reason, apparently, that you did not consider us worthy of recognition, and not in your class or standing as a team.

We, however, have played the entire season, and with some of the best teams in the Ohio valley at that, and so far we have not been defeated, and but one team has been able to even score against us, and we consider ourselves your equal if not your superior in every way.

We therefore challenge you to play us a game on Thanksgiving day, Nov. 26, at West End park in your city. The game to consist of at least two 30 minute halves, each team to furnish one official whoshall alternate as umpire and referee for each half. The winner to take 80 per cent and the loser 20 per cent of the net gate receipts, and if you refuse to play us we will justly claim the championship of the Ohio valley.

CRESCENT FOOTBALL TEAM,
Wellsville, O.

C. R. MCGREGOR, Manager.
Manager Stevenson was out of the city today, and nothing definite could be obtained, but members of the Eclipse team gave as their opinion that the challenge would be accepted. Wilkinsburg is booked to play here next Thursday, but the game can be cancelled.

THE SOLICITOR'S VIEW.

Doctor Williams Must Care For the Township's Patients.

According to the opinion of Solicitor Grosshans, Doctor Williams must care for diphtheria patients turned over to the township trustees by the board of health.

The question was an outcome of the last meeting of the board of health, and the solicitor prepared his report today after examining the contract signed by Doctor Williams and the trustees. He said:

"There is no doubt in my mind that Doctor Williams is bound to care for all charitable cases in Liverpool township it matters not what the disease may be. The board of health have no right to keep these cases, and their quarantine is only to prevent the spread of contagion. The public is not compelled to pay for one man's affliction. It is the duty of the board to turn these cases over to the trustees, who should investigate. If worthy they should be cared for by the township physician."

Foreclosed a Mortgage.

The Michigan Trust company, of Grand Rapids, foreclosed a mortgage on property owned by Mrs. Rentfrow, of the company playing at the Grand this week. The papers were forwarded to this city, and served on the defendant by W. B. Hill. The property in dispute is situated in Grand Rapids.

EAST LIVERPOOL, O., SATURDAY, NOV. 21.

SOME OF THE CABINETS now being built by ambitious editorial writers will make interesting reading after the fourth of next March.

THE Republican national league will more than do itself proud if it sends those 60,000 patriots to march in the inaugural parade.

WITH General Weyer lost and the sultan behaving himself the war correspondents of the Pittsburgh papers are treading a rocky road.

PURITY in municipal and local politics is too important to be forgotten in the exciting campaign which promises to precede the spring primaries.

ACTING on the supposition that no news is good news, the war correspondents have much today about the fine prospects for a Cuban victory.

THE Democrats who held that when silver went down what followed can now look at each other, and whisper down deep in their whiskers "what fools these mortals be."

THE railroad men voted for McKinley, and are already receiving their reward. It has been years since there was such activity on the great steel highways of the nation.

"The gain in the volume of business continues entirely without precedent," is the way Dunn's review of trade sums up the result of the election and announces the restoration of confidence.

THE civil service laws have made mighty gaps in the patronage within the gift of the president, but a whisper comes from Canton that Major McKinley has more than his share of once seekers already.

HERE'S dollars to doughnuts that the "friends" who are so glibly talking about Major McKinley's tariff policy know no more about it than the Canton correspondents so anxious for something to send their papers.

COERCION. The late election pains the Lisbon Patriot. In the increased vote of the county it can see all kinds of dangers, based on the presumption that voters were colonized and compelled to vote for McKinley. The Patriot is wrong. There was no illegality in the number of votes, and the only coercion was the coercion of good sense. The mere fact that the bulk of the increase in the Republican vote was cast in the enterprising cities and towns of the county should be proof to the Patriot that the people who suffered greatest were the people most desirous of lending their aid in the restoration of prosperity. To put it mildly the Patriot in its old age is getting flighty.

A TWICE TOLD TALE. Mr. Bryan is not original. He has entered upon his fourth year of campaigning with the wail of calamity upon his lips, dinning in the ears of a patient public such doleful prophecies as could only come from a defeated, disgruntled politician. In a recent effort he made bold to say that "the Republican party will fail to redeem the promises of prosperity," and he said it with much grace as though he believed it every word. Mr. Bryan makes a mistake. As far as it lies in its power the Republican party will redeem its every pledge. It has already started in this work of redemption. Every mill placed in operation, every factory started since the election is a part of the plan of the party which Mr. Bryan professes to believe has deceived the people. It is small business, this calamity howling. It is the last resort of the demagogue. There was a time when it could be used successfully, but we fear that time has passed. Grover Cleveland and the Democratic party taught the American people too good a lesson for them to forget.

SCHOOL QUESTION SETTLED.

A Compromise Arranged Between Manitoba and the Dominion Government.

OTTAWA, Nov. 21.—The Manitoba school question, which has more than once during the past three years threatened a disruption of Canadian confederation, has been settled.

Following are the main features of the terms of the settlement which has been accepted by the Manitoba government:

Religious teaching is to be conducted in the public school (1) if authorized by a resolution passed by a majority of school trustees; or (2), if a petition be presented to the board of school trustees asking for religious teaching and signed by the parent or guardians of at least ten children attending the school in a rural district, or by the parents or guardians of at least 25 children attending school in a city, town or village.

School work of a purely secular character will occupy the whole of the school day except the last half hour, when the representative of any religious denomination will be allowed to come in and instruct the children belonging to his denomination provided the parents are willing to have them remain.

Districts having an average attendance of 25 Roman Catholic school children shall be entitled to have a teacher of their own denomination, who must be fully qualified according to provincial national school standards.

In districts where the children speak French wholly, they are to have a teacher speaking both English and French, so that they will learn English as rapidly as possible. The teachers used in schools will be bi-lingual, so that the children will grow up from the first accustomed to English.

CONATY SUCCEEDS KEANE.

He is to be Rector of the Catholic University at Washington.

WASHINGTON, Nov. 21.—No information has been received, either at the Catholic university or the papal legation in this city, concerning the statement that Dr. Conaty had been appointed rector of the university. It was stated at the legation, however, that there was no reason to doubt the authenticity of the report.

If the subject came before the propaganda, which it no doubt would, action would be taken yesterday, as the propaganda met then. It was also stated that there was no reason to expect an announcement of the appointment by cable to the legation.

ROME, Nov. 21.—Rev. Dr. Thomas J. Conaty, rector of the Church of the Sacred Heart, Worcester, Mass., has been appointed by the pope rector of the Catholic university at Washington, to succeed Bishop John J. Keane, who resigned Sept. 29, 1896.

PRESIDENT CLEVELAND'S PLEA.

He and Huntington Ask Governor Budd to Spare a Striker's Life.

SACRAMENTO, Cal., Nov. 21.—Governor Budd has received from President Cleveland a personal plea for the commutation of sentence in the case of Salter D. Worden, under sentence of death for train wrecking in Yolo county during the railroad strike of 1894. An engineer and three United States army men were killed in the train wreck.

The president states as a ground for his interest in the case that, while a resident of New York state, before his elevation to the presidency, he had formed a great friendship with Worden's mother, a music teacher.

Governor Budd has also received a personal appeal from C. P. Huntington, president of the Southern Pacific, for a commutation of the death sentence.

SORE MOUTH.

This is an extremely painful disease, often lasting for weeks when only the ordinary remedies are used. Those who have suffered from Sore Mouth can best understand the value of a remedy by the use of which the worst case of Sore Mouth is

INSTANTLY RELIEVED.

This is just what Tonsiline, that wonderful Sore Throat remedy, does. Not only does the first dose give relief, but again a very few doses are given the worst Sore Mouth is

CURED.

Read what a well-known citizen of East Palestine, O., says about Tonsiline:

EAST PALESTINE, O., Jan. 8, 1896.

The Tonsiline Co.

During the past 13 years I have frequently suffered from a very severe and painful form of Ulcerated Sore Mouth. Tonsiline is the only remedy I have ever found that is a sure and quick cure for the most distressing ailment.

Tonsiline works like magic, relieving at once, and curing very quickly. I have also used Tonsiline in my family for Croup and Sore Throat and can freely commend it as a needed family remedy.

LONG QUITS FIGHTING.

Formal Application Made For Old Pension Rating.

HE WILL SUBMIT TO THE RULE.

Early Action to Be Taken by the Pension Department—The Contest Fought Through All the Courts—Dismissed Through the Retirement of Lochren.

WASHINGTON, Nov. 21.—Chief Justice Charles D. Long of the Michigan supreme court, who for two years waged a vigorous contest in the court against the pension bureau to test the rights of veterans, has now made application to the pension bureau for restoration to his old pension rating and has filed evidence to support his application. This move was an unexpected one even among those well acquainted with the case, and is taken as an indication that Judge Long will abandon his file in the courts and will submit to the rule of the office to file evidence to secure his restoration.

The contest was precipitated about two years ago by the action of Commissioner Lochren in reducing Judge Long to \$50 a month after ordering him for examination before a board of surgeons. He refused to be examined and was immediately reduced, though his counsel have claimed this action was a violation of law, which made examination a prerequisite to reduction.

The case was carried through all the courts here, the decisions being favorable to the contestant and finally reached the United States supreme court where it was dismissed recently, owing to abatement through Judge Lochren's retirement from office. The disposition of the case has been referred by Commissioner Murphy to Assistant Secretary of the Interior Reynolds, who will take early action.

FOOTBALL GAMES TODAY.

Thousands Gathering For the Contests at New York and Philadelphia.

NEW YORK, Nov. 21.—Fully 10,000 people are gathered at this hour on Manhattan field for the great Princeton-Yale football game.

During the present season the work of the New Jersey college has been superior to that of Yale. It is conceded by all who have watched the development of the two teams that the tigers are particularly strong behind the line and that she also has such good material in the line that Yale will have her hands full from the very beginning of the contest. Yale, on the other hand, has not produced a team up to her usual standard, although during the past two or three weeks her coaches have been doing some good work with the material at hand.

PHILADELPHIA, Nov. 21.—An immense crowd is pouring into the field for the Harvard-Pennsylvania football game. Pennsylvania is thought to have the strongest team.

WANT MEXICAN DOLLARS.

Kansas Populists Talk of Making Them Legal Tender.

WASHINGTON, Nov. 21.—Should the Kansas Populists enact a law making Mexican silver dollars a legal tender a constitutional question of prime importance will arise for decision by the United States supreme court, which unquestionably would have a case brought before it to test such a law. The constitution, section 10, declares that no state shall "coin money; emit bills of credit; make anything but gold and silver coin a tender in payment of debts."

It has been contended that under this provision Kansas could make Mexican silver dollars a legal tender within her borders, but generally has believed that under this and other constitutional provisions, including that forbidding the impairment of contracts, any such law would be held invalid by the courts.

BEHIND WITH WAGES.

Employees of the Ohio Southern Threaten to Go on a Strike.

SPRINGFIELD, O., Nov. 21.—The Ohio Southern railroad is behind in its payment to its men for April and the first eight days in May, 1895, at which time the road went into the hands of a receiver. Now it is behind from Sept. 1 to Nov. 30, aggregating, in some instances, nearly \$500.

The postponement of the sale of the road has made the men desperate and they say they will have their money or quit. If they go out they will be headed by the Brotherhood of Railway Firemen. The road has in its employ hundreds of men who will go out from every department.

The Cleveland Fire.

CLEVELAND, Nov. 21.—Every employee of Luetkemeier & Co. has been accounted for and is safe from the fire in their establishment. No one was seriously enough burned to confine him to his home. Specimens of quartz picked up at random show unmistakable signs of metallic value. Several specimens have been analyzed, and show that silver can be produced from the ore in quantities of 65½ ounces to the ton. This proportion of silver gives a value of nearly \$50 per ton.

KAISER HELD FOR MURDER.

Others Likely Implicated in the Killing of His Wife.

NOERISTOWN, Pa., Nov. 21.—Charles O. Kaiser has been held to answer for the murder of his wife, Emma P. Kaiser, who was shot and instantly killed on a lonely road near Bridgeport on the night of Oct. 28. The verdict rendered by the coroner's jury holds him responsible for her death, and adds that he was aided by unknown persons in a scheme to defraud insurance companies. Kaiser was committed to prison and Dec. 7 has been fixed for his trial.

When the murder was committed the couple were driving home from Gulf Mills, a village near Bridgeport, where they had been delivering portraits from their store in this city. The first news of the crime was obtained by Frank Mancill, a Norristown hotelkeeper, who found Kaiser madly circling about the road shrieking "murder," while in the carriage nearby lay the corpse of his wife with a bullet in the head.

Kaiser's story was that the murder had been committed by highwaymen, who robbed them of valuable jewelry and money. Next day, however, the goods were found hidden under stones along the road, and suspicion was directed toward the husband.

Subsequent developments proved that the woman's life recently had been insured in a number of companies for her husband's benefit, to an aggregate sum of \$10,500 and that the couple had not lived happily together. A mysterious man and woman, known to have been intimately associated with Kaiser, are implicated. They had meetings with him some days before the murder and were seen in the vicinity of the spot, where it occurred at nearly the same time. Detectives are searching for them, and the case bids fair to be rich in startling revelations. The team in which Kaiser and his wife rode has been identified as one stolen from ex-Mayor Jackson of Gloucester, N. J. It was hired Sept. 5 by the mysterious woman and never returned.

The evidence adduced forms a strong circumstantial chain around Kaiser. It is said that, while denying his own guilt, Kaiser has admitted to detectives that he knows the murderer but will not reveal his identity.

Ropes and Belts.

It is asserted that repeated experiments have proved, in the transmission of power, that ropes and belts, when well arranged, absorb almost the same amount of power. Some French trials in this line, as reported in Engineering Mechanics, were made, it appears, with a 200 horsepower engine, fitted with rope and belt flywheels 14½ feet in diameter. The steam engine had a flywheel for the belt and one for the ropes. The dynamo was driven direct off the flywheel, without a counter shaft, and was provided with two pulleys, one for the belt and one for the ropes. The dynamo was driven direct off the flywheel, being mounted on adjusting screws, so that the tension of the belt or ropes could be regulated at will. A cotton belt, a leather belt, and a homogeneous leather belt and ropes were of standard quality. Experiments of a comparative nature were made alternately with the ropes and belts, several tests each day, the results being as above indicated.

When You Owe a Bill to China.

A Chinese statute enacts that debts which are not settled on New Year's eve cannot subsequently be recovered; but, according to recognized usage, a creditor who has vainly pursued a debtor all through the night may still follow him after daybreak, provided he continues to carry his lighted lantern, as if he believed it was still night. This, however, is the creditor's last chance.

EAST LIVERPOOL, O., SATURDAY, NOV. 21.

SOME of the cabinets now being built
by ambitious editorial writers will make
interesting reading after the fourth of
next March.

THE Republican national league will
more than do itself proud if it sends
those 60,000 patriots to march in the
inaugural parade.

WITH General Weyler lost and the
sultan behaving himself the war
correspondents of the Pittsburg papers
are treading a rocky road.

PURITY in municipal and local politics
is too important to be forgotten in the
exciting campaign which promises to
precede the spring primaries.

ACTING on the supposition that no
news is good news, the war correspond-
ents have much today about the fine
prospects for a Cuban victory.

THE Democrats who held that when
silver went down what followed can
now look at each other, and whisper
down deep in their whiskers "what fools
these mortals be."

THE railroad men voted for McKinley,
and are already receiving their reward.
It has been years since there was
such activity on the great steel high-
ways of the nation.

"The gain in the volume of business
continues entirely without precedent,"
is the way Dunn's review of trade
sums up the result of the election and
announces the restoration of confidence.

THE civil service laws have made
mighty gaps in the patronage within
the gift of the president, but a whisper
comes from Canton that Major McKin-
ley has more than his share of once
seekers already.

Here's dollars to doughnuts that the
"friends" who are so glibly talking
about Major McKinley's tariff policy
know no more about it than the Canton
correspondents so anxious for something
to send their papers.

COERCION.

The late election pains the Lisbon
Patriot. In the increased vote of the
country it can see all kinds of dangers,
based on the presumption that voters
were colonized and compelled to vote
for McKinley. The Patriot is wrong.
There was no illegality in the number
of votes, and the only coercion was the
coercion of good sense. The mere fact
that the bulk of the increase in the Re-
publican vote was cast in the enterpris-
ing cities and towns of the country should
be proof to the Patriot that the people
who suffered greatest were the people
most desirous of lending their aid in the
restoration of prosperity. To put it
mildly the Patriot in its old age is
getting flighty.

A TWICE TOLD TALE.

Mr. Bryan is not original. He has
entered upon his four years of campaign-
ing with the wail of calamity upon his
lips, dining in the ears of a patient
public such doleful prophecies as could
only come from a defeated, disgruntled
politician. In a recent effort he made
bold to say that "the Republican party
will fail to redeem the promises of pros-
perity," and he said it with as much
grace as though he believed it every
word. Mr. Bryan makes a mistake.
As far as it lies in its power the Republi-
can party will redeem its every pledge.
It has already started in this work of
redemption. Every mill placed in
operation, every factory started since
the election is a part of the plan of the
party which Mr. Bryan professes to be-
lieve has deceived the people. It is
small business, this calamity howling.
It is the last resort of the demagogue.
There was a time when it could be used
successfully, but we fear that time has
passed. Grover Cleveland and the
Democratic party taught the American
people too good a lesson for them to
forget.

SCHOOL QUESTION SETTLED.

A Compromise Arranged Between Mani-
toba and the Dominion Government.

OTTAWA, Nov. 21.—The Manitoba
school question, which has more than
once during the past three years threat-
ened a disruption of Canadian confeder-
ation, has been settled.

Following are the main features of
the terms of the settlement which has
been accepted by the Manitoba govern-
ment:

Religious teaching is to be conducted
in the public school (1) if authorized by
a resolution passed by a majority of
school trustees; or (2), if a petition be
presented to the board of school trust-
ees asking for religious teaching and
signed by the parent or guardians of at
least ten children attending the school
in a rural district, or by the parents or
guardians of at least 25 children attend-
ing school in a city, town or village.

School work of a purely secular char-
acter will occupy the whole of the
school day except the last half hour,
when the representative of any relig-
ious denomination will be allowed to
come in and instruct the children be-
longing to his denomination provided
the parents are willing to have them
remain.

Districts having an average attend-
ance of 25 Roman Catholic school chil-
dren shall be entitled to have a teacher
of their own denomination, who must
be fully qualified according to provin-
cial national school standards.

In districts where the children speak
French wholly, they are to have a
teacher speaking both English and
French, so that they will learn English
as rapidly as possible. The readers
used in schools will be bi-lingual, so
that the children will grow up from
the first accustomed to English.

CONATY SUCCEEDS KEANE.

He Is to Be Rector of the Catholic Uni-
versity at Washington.

WASHINGTON, Nov. 21.—No informa-
tion has been received, either at the
Catholic university or the papal lega-
tion in this city, concerning the sta-
tus of the appointment.

REV. DR. T. J. CONATY.

ment that Dr. Conaty had been appoint-
ed rector of the university. It was
stated at the legation, however, that
there was no reason to doubt the au-
thenticity of the report.

If the subject came before the propa-
ganda, which it no doubt would, action
would be taken yesterday, as the propa-
ganda met then. It was also stated
that there was no reason to expect an
announcement of the appointment by
cable to the legation.

ROME, Nov. 21.—Rev. Dr. Thomas J.
Conaty, rector of the Church of the
Sacred Heart, Worcester, Mass., has
been appointed by the pope rector of
the Catholic university at Washing-
ton, to succeed Bishop John J. Keane,
who resigned Sept. 29, 1896.

PRESIDENT CLEVELAND'S PLEA.

He and Huntington Ask Governor Budd
to Spare a Striker's Life.

SACRAMENTO, Cal., Nov. 21.—Gov-
ernor Budd has received from President
Cleveland a personal plea for the com-
mutation of sentence in the case of
Salter D. Worden, under sentence of
death for train wrecking in Yolo county
during the railroad strike of 1894.
An engineer and three United States
artillerymen were killed in the train
wreck.

The president states as a ground for
his interest in the case that, while a
resident of New York state, before his
election to the presidency, he had
formed a great friendship with Word-
en's mother, a music teacher.

Governor Budd has also received a
personal appeal from C. P. Huntington,
president of the Southern Pacific, for a
commutation of the death sentence.

SORE MOUTH.

This is an extremely painful disease, often
lasting for weeks when only the ordinary
remedies are used. Those who have suf-
fered from Sore Mouth can best understand
the value of a remedy by the use of which the
worst case of Sore Mouth is

INSTANTLY RELIEVED.

This is just what Tonsiline, that wonderful
Sore Throat remedy, does. Not only does
the first dose give relief, but again a very
few doses are given the worst Sore Mouth is

CURED.

Read what a well-known citizen of East
Palestine, O., says about Tonsiline:

EAST PALESTINE, O., Jan. 8, 1896.

The Tonsiline Co.
During the past 13 years I have frequently suf-
fered from a very severe and painful form of
Ulcerated Sore Mouth. Tonsiline is the only
remedy I have ever found that is a sure and quick
cure for the most distressing ailment.
Tonsiline works like magic, relieving at once,
and curing very quickly. I have also used Tonsi-
line in my family for Croup and Sore Throat and
can freely commend it as a needed family
remedy.

LONG QUILTS FIGHTING.

Formal Application Made For
Old Pension Rating.

HE WILL ADMIT TO THE RULE.

Early Action to Be Taken by the Pen-
sion Department—The Contest Fought
Through All the Courts—Dismissed
Through the Retirement of Lochren.

WASHINGTON, Nov. 21.—Chief Justice
Charles D. Long of the Michigan su-
preme court, who for two years waged
a vigorous contest in the court against
the pension bureau to test the rights of
veterans, has now made application to
the pension bureau for restoration to
his old pension rating and has filed evi-
dence to support his application. This
move was an unexpected one even
among those well acquainted with the
case, and is taken as an indication that
Judge Long will abandon his file in the
courts and will submit to the rule of the
office to file evidence to secure his res-
toration.

The contest was precipitated about
two years ago by the action of Com-
missioner Lochren in reducing Judge
Long to \$50 a month after ordering him
for examination before a board of sur-
geons. He refused to be examined and
was immediately reduced, though his
counsel have claimed this action was a
violation of law, which made examina-
tion a prerequisite to reduction.

The case was carried through all the
courts here, the decisions being favor-
able to the contestant and finally
reached the United States supreme
court where it was dismissed recently,
owing to abatement through Judge
Lochren's retirement from office. The
disposition of the case has been referred
by Commissioner Murphy to Assistant
Secretary of the Interior Reynolds,
who will take early action.

FOOTBALL GAMES TODAY.

Thousands Gathering For the Contests
at New York and Philadelphia.

NEW YORK, Nov. 21.—Fully 10,000
people gathered at this hour on Man-
hattan field for the great Princeton-
Yale football game.

During the present season the work
of the New Jersey college has been su-
perior to that of Yale. It is conceded
by all who have watched the develop-
ment of the two teams that the tigers
are particularly strong behind the line
and that she also has such good material
in the line that Yale will have her
hands full from the very beginning of
the contest. Yale, on the other hand,
has not produced a team up to her usual
standard, although during the past two
or three weeks her coaches have been
doing some good work with the mate-
rial at hand.

PHILADELPHIA, Nov. 21.—An im-
mense crowd is pouring into the field
for the Harvard-Pennsylvania football
game. Pennsylvania is thought to
have the strongest team.

WANT MEXICAN DOLLARS.

Kansas Populists Talk of Making Them
Legal Tender.

WASHINGTON, Nov. 21.—Should the
Kansas Populists enact a law making
Mexican silver dollars a legal tender a
constitutional question of prime import-
ance will arise for decision by the
United States supreme court, which un-
questionably would have a case brought
before it to test such a law. The con-
stitution, section 10, declares that no
state shall "coin money; emit bills of
credit; make anything but gold and
silver coin a tender in payment of
debts."

It has been contended that under this
provision Kansas could make Mexican
silver dollars a legal tender within her
borders, but generally has believed that
under this and other constitutional pro-
visions, including that forbidding the
impairment of contracts, any such law
would be held invalid by the courts.

Intimate Friend of Lincoln Dead.

CHICAGO, Nov. 21.—Henry Asbury,
an intimate personal and political
friend of Abraham Lincoln and the
man who framed for him the four ques-
tions propounded to Stephen A. Doug-
lass at Freeport in the famous debates
of 1856, is dead at the age of 86 years.

lice court Edward J. Ivory, alias Ed-
ward Bell, the alleged Irish-American
dynamiter of New York city, charged
with conspiring to cause explosions, was
formally committed for trial at the next
sessions of the central criminal court.

A Fight With Bandits.

SEPAR, N. M., Nov. 21.—Deputy
United States Marshal McGlinchey has
had a fight with Black Jack's bandits,
killing the notorious Bob Hayes, and
wounding George Musgrove, alias Jeff
Davis, who escaped. None of the posse
were injured.

Dr. J. meson Nearly Died.

LONDON, Nov. 21.—Dr. Jameson,
the leader of the raid into the Transvaal,
has undergone an operation in Hollow-
ay jail, and at one time his condition
was grave. Efforts to secure his pardon
and that of his fellow prisoners have
been renewed.

Dead In Each Other's Arms.

VALLEY CITY, N. D., Nov. 21.—A
man and a woman, who registered at
the hotel as Thomas Owens and wife,
New Rockford, have been found in
their room dead, clad in traveling
clothes and clasped in each other's
arms. Prussic acid had been taken.

Nobody Fatally Hurt.

MACON, Ga., Nov. 21.—The investi-
gation of the accident at the Central
railroad compress, in which a number
of employees were injured by the fall-
ing of a cotton platform, shows that no
fatalities resulted.

wood, title examiner of the St. Louis

dock company, Buffalo, steel oil tank

BEHIND WITH WAGES.

Employees of the Ohio Southern Threaten
to Go on a Strike.

SPRINGFIELD, O., Nov. 21.—The Ohio
Southern railroad is behind in its pay-
ment to its men for April and the first
eight days in May, 1895, at which time
the road went into the hands of a re-
ceiver. Now it is behind from Sept. 1
to Nov. 20, aggregating, in some in-
stances, nearly \$500.

The continued postponement of the
sale of the road has made the men des-
perate and they say they will have their
money or quit. If they go out they
will be headed by the Brotherhood of
Railway Firemen. The road has in its
employ hundreds of men who will go
out from every department.

The Cleveland Fire.

CLEVELAND, Nov. 21.—Every employee
of Luetkemyer & Co. has been account-
ed for and is safe from the fire in their
establishment. No one was seriously
enough burned to confine him to his
home. The building, owned by the
Parsons estate, is damaged to the ex-
tent of \$50,000. The stock of Luetke-
meyer & Co., consumed, was worth
\$100,000, covered by insurance. The
furniture stock of the Goodhart Fur-
niture company on one side is damaged
by smoke and water to the extent of
\$10,000, and that of Lally & Rockett,
trunks, on the other side, \$500.

Silver Ore Found.

WEST UNION, O., Nov. 21.—A valu-
able find has been made on the lands of
Hon. Robert Cochran, in the eastern
part of this county. Specimens of
quartz picked up at random show un-
mistakable signs of metallic value.
Several specimens have been analyzed,
and show that silver can be pro-
duced from the ore in quantities of
65 1/2 ounces to the ton. This proportion
of silver gives a value of nearly
\$50 per ton.

Prizefighter Sent to Prison.

SPRINGFIELD, O., Nov. 21.—Earl A.
Moore has been taken to the peniten-
tiary for a term of years for prizefight-
ing. He is said to be the first person
ever sent to the penitentiary for prize-
fighting where neither participants
were injured or killed. John Jenkins,
Moore's antagonist, escaped.

Alleged Explorer Fished Out.

PORTSMOUTH, O., Nov. 21.—Walter
Swain, who came here a year ago
claiming to have been a member of one
of Lieutenant Peary's Arctic exploring
expeditions and has led a very check-
ered career since, attempted to suicide
by jumping into the river, but was
fished out.

KAISER HELD FOR MURDER.

Others Likely Implicated In the Killing
of His Wife.

NORRISTOWN, Pa., Nov. 21.—Charles
O. Kaiser has been held to answer for
the murder of his wife, Emma P.
Kaiser, who was shot and instantly
killed on a lonely road near Bridgeport
on the night of Oct. 28. The verdict
rendered by the coroner's jury holds
him responsible for her death, and adds
that he was aided by unknown persons
in a scheme to defraud insurance com-
panies. Kaiser was committed to prison
and Dec. 7 has been fixed for his trial.

When the murder was committed the
couple were driving home from Gulf
Mills, a village near Bridgeport, where
they had been delivering portraits from
their store in this city. The first news
of the crime was obtained by Frank
Mancill, a Norristown hotelkeeper, who
found Kaiser madly circling about the
road shrieking "murder," while in
the carriage nearby lay the corpse of
his wife with a bullet in the head.
Kaiser's story was that the murder had
been committed by highwaymen, who
robbed them of valuable jewelry and
money. Next day, however, the couple
were found hidden under stones along
the road, and suspicion was directed
toward the husband.

Subsequent developments proved that
the woman's life recently had been in-
sured in a number of companies for her
husband's benefit, to an aggregate sum
of \$10,500 and that the couple had not
lived happily together. A mysterious
man and woman, known to have been
intimately associated with Kaiser, are
implicated. They had meetings with
him some days before the murder and
were seen in the vicinity of the spot,
where it occurred at nearly the same
time. Detectives are searching for
them, and the case bids fair to be rich
in startling revelations. The team in
which Kaiser and his wife rode has
been identified as one stolen from ex-
Mayor Jackson of Gloucester, N. J. It
was hired Sept. 5 by the mysterious
woman and never returned.
The evidence adduced forms a strong
circumstantial chain around Kaiser. It
is said that, while denying his own
guilt, Kaiser has admitted to detectives
that he knows the murderer but will
not reveal his identity.

Escaped Convict Captured.

NEW YORK, Nov. 21.—Thomas
Thompson, who on July 18, 1892, es-
caped from Sing Sing penitentiary by
swimming the Hudson river in broad
day light, has been recaptured in this
city.

Republicans Will Contest.

NASHVILLE, Nov. 21.—Chairman
Cliffe of the Republican state commit-
tee, has appointed John L. Lottin of
this city, chairman of the committee to
investigate alleged election frauds.

Ropes and Belts.

It is asserted that repeated experi-
ments have proved, in the transmission
of power, that ropes and belts, when
well arranged, absorb almost the same
amount of power. Some French trials in
this line, as reported in Engineering
Mechanics, were made, it appears, with
a 200 horsepower engine, fitted with
rope and belt flywheels 14 1/2 feet in di-
ameter. The steam engine had a fly-
wheel for the belt and one for the ropes.
The dynamo was driven direct off the
flywheel, without a counter shaft, and
was provided with two pulleys, one for
the belt and one for the ropes. The dy-
namo was driven direct off the flywheel,
being mounted on adjusting screws, so
that the tension of the belt or ropes
could be regulated at will. A cotton
belt, a leather belt, and a homogeneous
leather belt and ropes were of standard
quality. Experiments of a comparative
nature were made alternately with the
ropes and belts, several tests each day,
the results being as above indicated.

When You Owe a Bill to China.

A Chinese statute enacts that debts
which are not settled on New Year's
eve cannot subsequently be recovered;
but, according to recognized usage, a
creditor who has vainly pursued a debt-
or all through the night may still fol-
low him after daybreak, provided he
continues to carry his lighted lantern,
as if he believed it was still night.
This, however, is the creditor's last
chance.

NO CHANGE IN CUBA.

Weyler Reported to Be Still Unable to Force a Battle.

A TRUCE MAY BE DECLARED.

No Matter Which Side Wins in a Decisive Battle, Peace Proposals Will Likely Follow—Gomez Reported to Be Marching on Havana.

HAVANA, Nov. 21.—The coasting steamer Triton has arrived here from Pinar del Rio with 167 sick soldiers and two insurgent prisoners. Owing to the precautions taken by the government, no definite news could be obtained from this source and the officials at headquarters say they have no news at present which can be made public concerning the movements of Captain General Weyler, although it is intimated that there is not much change in the situation.

KEY WEST, Nov. 21.—Advices received here from Cuba by the steamship Whitney cast discredit upon the statement that the campaign of Captain General Weyler against Antonio Maceo in the province of Pinar del Rio has failed and that Weyler will shortly return to Havana. It is stated on the contrary that Weyler has no intention of returning to the capital until he shall have exhausted every effort to compel Maceo to meet him in a pitched battle. When last heard from, the Spanish commander was massing his forces for an attack upon the insurgents.

The latter are said to number only 20,000 men all told and they are reported to be suffering from a scarcity of provisions, etc. Maceo is awaiting reinforcements, and in this connection, news of the whereabouts and doings of Maximiliano Gomez are awaited with much interest. Little or nothing has been heard recently of Gomez, who is believed to be at the head of the main body of the insurgent forces. Current reports, some time ago, had it that he was in the province of Santa Clara and advancing westward toward Mantanzas, his objective point being the province of Havana and possibly the city of Havana itself.

While Weyler's present campaign is regarded in Havana as marking a crisis in the war, it is whispered that at the conclusion of any pitched battle that may be fought, no matter which side wins, a truce may be declared and arrangements made for a conference between the insurgent leaders and the representatives of Spain, looking to a settlement of the war. This is most significant as showing that all classes are utterly tired of the war and its burdens and longing for some way out of the present difficulties.

WASHINGTON, Nov. 21.—There is no official verification of reports which have been current here and in London of a Spanish-Cuban armistice and in fact every avenue of official information on the Cuban question is closed.

HELD FOR A RANSOM.

A Young St. Louis Woman Believed to Be in a Rascals' Clutches.

ST. LOUIS, Nov. 21.—The relatives of Miss Pauline Bauer, the young woman who mysteriously disappeared from her home a week ago, now believe that she is not dead, but, instead, that she is confined in some secluded room by an unknown man who hopes to exact a ransom from them.

Miss Maria Maurer, a younger sister of the missing girl, is very strong in this belief, for the reason that on the Thursday before her sister disappeared she and Pauline were closely watched by a strange man, who acted in a suspicious manner. The police working on the case concur in the ransom theory. The girl was soon to have come into possession of a large amount of money left her in a will.

MATCHED FOR A FIGHT.

Corbett and Fitz Will Battle in New York Jan. 1.

BOSTON, Nov. 21.—James J. Corbett, the pugilist, has been signed by Warren Lewis, of the Greater New York Athletic club, for a 20-round boxing match with Robert Fitzsimmons before the club for a purse of \$36,000, on Jan. 14. Corbett sent a telegram to Fitzsimmons, stating that 20 rounds would be a finish fight and that talk of a finish fight would spoil all. A message was also received from Julian Fitzsimmons manager, demanding a championship battle to a finish, but if such a fight is impossible then "any old kind of a match will suit."

The date will likely be changed to Jan. 1.

Hardware Men Elect Officers.

PHILADELPHIA, Nov. 21.—The National Hardware association elected the following officers: William W. Supplee, Philadelphia, president; H. H. Strong, St. Paul, and Theodore D. Buhl, Detroit; for one year, Bruce Hayden, San Francisco and New York, and Colonel Morris B. Belknap, Louisville.

The Vote in South Dakota.

YANKTON, S. D., Nov. 21.—The vote in this state is only complete in congressmen. The totals are: Republicans, 40,870; Populists, 40,989. Several contests are in progress, and these may change the results. Of the Republican state ticket the lieutenant governor, secretary of state, treasurer, commissioner of public lands, auditor and superintendent of schools are elected. The governor is in doubt. The official canvass will be made Dec. 3.

ESCORT FOR MCKINLEY.

The Republican League Decides to Go to Washington—Headquarters at Chicago.

CHICAGO, Nov. 21.—The executive committee of the National Republican League has been in session at the Auditorium. President Woodmansee created considerable enthusiasm when he reported that he had seen President McKinley and secured from him a promise to attend the national convention of the League in Detroit next July.

The session was given up almost entirely to the discussion of the part the League ought to play in the inaugural proceedings at Washington, March 4. It was decided to make arrangements for headquarters for the League in Washington during the inaugural season and to urge the clubs affiliated with the League to take part in the procession.

An effort will be made to secure a prominent place in the procession and the members believe that they can take to Washington 50,000 club members on that occasion.

Another subject discussed was the proposed tour of W. J. Bryan in the west. It was agreed to hold meetings wherever Mr. Bryan speaks. Books and pamphlets will be distributed in all the towns of the Bryan schedule and speakers will then be sent.

The headquarters of the League are to remain in Chicago.

The League will furnish an escort for Major McKinley from Canton to the capital. Secretary Dowling has received word so far that eight states will have clubs in line. They are: Maryland, New Jersey, Tennessee, Ohio, Kentucky, New York, Rhode Island and Illinois. Other states are expected to follow suit.

President Woodmansee has appointed members of the national executive committee of the League to act as his staff on March 4.

Secretary Dowling, in order to save expenses, offered to continue his work without salary.

K. OF L. FOR SILVER.

The General Assembly Makes a Demand For Free Coinage.

ROCHESTER, N. Y., Nov. 21.—The general assembly, Knights of Labor, has declared for free silver. The action taken was in the adoption of an additional clause to the seventeenth plank of the declaration submitted by the committee on law. As originally framed this plank held that interest-bearing bonds, bills of credit or notes should never be issued by the government, but that when need arises the emergency should be met by the issue of legal tender non-interest bearing money.

To this was added the following:

"And that gold and silver when so issued shall be the free and unlimited coinage at the ratio of 16 to 1 regardless of the action of any other nation."

A resolution was adopted that the general assembly denounce the attempt soon to be made to take from the government of the people the sovereign right to issue money and leaving it entirely under the control of the national banks and calls upon the people everywhere to watch their representatives in congress and demand from them such legislation as will continue the issuance of government money in preference to money of national banks or corporations.

IMPROVED B. AND O. SERVICE.

The Company to Make Arrangements With the Reading.

PHILADELPHIA, Nov. 21.—As a result of a conference held in this city between representatives of the Reading and Baltimore and Ohio Railroad companies, a number of changes are likely to be made as soon as the new Reading company gets into full working order.

It is understood that the Baltimore and Ohio is negotiating for a through train service between New York and the south, and to accomplish this the acquiescence of the Reading is necessary. If the Baltimore and Ohio succeeds in securing its line to Florida and other northern points a number of changes will have to be made in its freight and passenger service. It is also said that there is some talk of lowering the time between New York and Washington.

Trying to Stop Gambling.

JACKSONVILLE, Fla., Nov. 21.—Efforts are again being made to suppress gambling in this city. The investigation is being conducted by the city attorney, J. E. T. Bowden, manager of the Duval Athletic club, which pulled off the Corbett-Mitchell fight three years ago.

DUN'S TRADE REVIEW.

The Gain in Volume of Business Very Large.

NUMBER OF CONCERNS RESUME.

Clearing House Exchanges Exceed Those of Last Year—Big Export of Grain and Flour Reported—The Iron Trade Situation—Business Failures.

NEW YORK, Nov. 21.—R. G. Dun & Co.'s weekly Review of Trade, issued today, says: The gain in volume of business continues entirely without precedent. More than 390 establishments have started work since the election which were idle and at least 300 have increased working force, making 690 concerns which are known to have added largely to the number of hands at work, and these are only part of the whole number. Every day thus adds thousands to those who are able to buy a week's supplies, and to make up gradually for many months of enforced economy. Already this brings great increase in the volume of business and the clearing house exchanges for the first time in several years, not only exceed those of last year by 10 per cent, but also exceed those of the same week in 1892 by 9 per cent.

Business men are all anxious to prevent anything like the fictitious excitement of last summer, and in nearly all branches an excessive rise in prices is prevented. But with more hands at work there is inevitably a greater demand for supplies, materials and products. The speculative markets have been reacting, which is also natural. Wheat has risen with wonderful rapidity, so that exports had been checked by the higher prices, and realizing started a break, which made the close 3 1/2 cents lower for the week. It appears that Pacific exports of wheat, flour included, were nearly 3,000,000 bushels larger July 1 to Nov. 1 than last year, and all other exports about 15,800,000 bushels larger or more than 50 per cent, and in November Atlantic exports have been 4,494,106 bushels, flour included, against 4,763,745 bushels last year. The demand for freight room, both here and on the Pacific coast, is still so large as to disclose an extraordinary foreign demand.

In 1891, when all Europe was scrambling for American wheat, the value of all exports was in one month, December, about \$7,000,000 larger than last month, but in no other month has that record ever been exceeded. There was a gain of over \$8,000,000 in miscellaneous exports.

In November thus far the gain of New York exports has been 21 per cent and for the last week 40 per cent, the latest week having been the largest on record since the second week of October, 1890, while imports were 17 per cent smaller than last year for the week and 25 per cent smaller for the month thus far. Under these circumstances, in spite of heavy payments on loans abroad, the movement of gold this way would undoubtedly be resumed if foreign buying of American securities should set in.

In a transition period, industries record gains slowly, but the slight decline in prices of Bessemer pig iron and of finished products of iron and steel is partly due to realizing on speculative purchases before the election and partly to the selling of nails by jobbers below the combination price. For most manufactured products of iron there is a better demand and a slow advance in prices.

Failures for the week have been 314 in the United States, against 320 last year, and 40 in Canada, against 42 last year.

Not to Be Repeated.

Some years ago, at a session of the legislature of Kentucky, an effort to repeal the law offering a bounty on foxes' scalps was made, but was defeated by the appeal of a member from a mountainous and sparsely settled region.

"Do the gentlemen want to deprive my constituents and me of the benefits of hearing the gospel preached?" he demanded, with indignation in his tone and overbearing his rugged countenance. "We are all Methodists up my way, and our preachers won't come without we can give 'em chickens, I know. We can't raise chickens unless the foxes are killed by somebody, that's sure, and there ain't anybody that can afford to spend their time hunting foxes and get nothing to pay for it."

"So, gentlemen, if you repeal this law, you'll be depriving my constituents of the benefit of hearing the gospel preached. That's the way it looks to me!"

This reasoning was too much for the legislature, and for the time being the law was not repealed.—Youth's Companion.

Foley's Honey and Tar does not claim to perform miracles. It does not claim to cure all cases of consumption or asthma. But it does claim to give comfort and relief in advanced stages of these diseases and to usually cure early stages. It is certainly worth trying by those afflicted or threatened with these dread diseases.

Archbishop of Canterbury.

The archbishop of Canterbury is referred to as "his grace," and he writes himself archbishop, etc., "divina providentia," whereas other prelates use the phrase "divina permissione." He is the first peer in the realm. At coronations he places the crown on the head of the sovereign, and the king and queen are his domestic parishioners. The bishop of London is his provincial dean, the bishop of Winchester his subdean, the bishop of Lincoln his chancellor, and the bishop of Rochester his chaplain.

THE MARATHON RACE.

The Wild Excitement of the Greeks When Their Countrymen Won It.

The Greeks are novices in the matter of athletic sports and had not looked for much success for their own country. One event only seemed likely to be theirs from its very nature—the long distance run from Marathon, a prize for which has been newly founded by M. Michel Breal, a member of the French institute, in commemoration of that soldier of antiquity who ran all the way to Athens to tell his fellow citizens of the happy issue of the battle. The distance from Marathon to Athens is 42 kilometers. The road is rough and stony. The Greeks had trained for this run for a year past. Even in the remote districts of Thessaly young peasants prepared to enter as contestants. In three cases it is said that the enthusiasm and the inexperience of these young fellows cost them their lives, so exaggerated were their preparatory efforts. As the great day approached women offered up prayers and votive tapers in the churches that the victor might be a Greek.

The wish was fulfilled. A young peasant named Loues from the village of Marousi was the winner in 2 hours and 55 minutes. He reached the goal fresh and in fine form. He was followed by two other Greeks. The excellent Australian sprinter Flack and the Frenchman Lermusiaux, who had been in the lead the first 35 kilometers, had fallen out by the way. When Loues came into the stadium, the crowd, which numbered 60,000 persons, rose to its feet like one man, swayed by extraordinary excitement. The king of Serbia, who was present, will probably not forget the sight he saw that day. A flight of white pigeons was let loose, women waved fans and handkerchiefs, and some of the spectators who were nearest to Loues left their seats and tried to reach him and carry him in triumph. He would have been suffocated if the crown prince and Prince George had not bodily led him away. A lady who stood next to me unfurled her watch, a gold one set with pearls, and sent it to him; an innkeeper presented him with an order good for 365 free meals, and a wealthy citizen had to be dissuaded from signing a check for 10,000 francs to his credit. Loues himself, however, when he was told of this generous offer, refused it. The sense of honor, which is very strong in the Greek peasant, thus saved the nonprofessional spirit from a very great danger. —"The Olympic Games of 1896," by Baron Pierre de Coubertin, in Century.

Good Nature and Justice.

Foreigners are frequently impressed with the extreme good nature of our people in trying circumstances and the patience with which they endure hardships and discomforts which spring from thoughtlessness and injustice. Now, patience and good nature are excellent qualities, and the field for their exercise is a wide one. The grumbling disposition, which fruitlessly complains of and magnifies each passing annoyance, disquieting and irritating every one in the vicinity, is worthy of sincere reprobation. At the same time there are limits beyond which an easy good nature ceases to be a virtue. We plume ourselves upon it and compare its soothing effects with the influence stirred up by an opposite course, to the entire advantage of the former. And in this we are correct just as long as it does not pander to injustice.

To smile indulgently at a wrong that calls for correction, to bear with equanimity what ought never to be borne at all, to submit patiently to evils that spring from unfairness and to influence others to do the same plainly tend to foster the continuance of wrongdoing and to make those engaged in it self-satisfied and secure. Patient endurance, so estimable under certain circumstances, may under others be an actual injury to society. From the resistance to an injurious fashion or custom up to the correction of grave abuses, the earnest seeker after justice is a true philanthropist and demands the esteem and co-operation of his fellow men.—Philadelphia Ledger.

Tobacco and Color Blindness.

"Color blindness is on the increase," said Dr. D. L. Bliss of New York. "The causes of this defect in vision that may be otherwise perfect are not all very well understood. It would seem that the use of tobacco had a good deal to do with it. I have examined a great many for color blindness, having on several occasions been employed by railroad companies to do so, and in every instance where the man examined was found to be color blind he was a user of tobacco. Women are seldom afflicted in this way, hence it must be caused by something that men do which women do not. What causes exist among women will be found to be inherited from male ancestors. I have never known a woman to be color blind whose father was free from the defect. I am a smoker and my perceptions of color are unusually good, so that it is not impossible that a man may use tobacco without such an effect, but I believe a large proportion of the cases are caused by tobacco."—Washington Star.

Time Occupied by Dreams.

The time occupied by a dream is one of the marvels of sleep. In the work entitled "The Philosophy of Mystery" we read of a man who dreamed that he had enlisted as a soldier; that he had joined his regiment and traveled to a foreign country; that he finally deserted on account of the harsh treatment he had received at the hands of his superior officers; that he had been apprehended and carried back to his regiment; that upon arriving there he was tried by court martial, condemned to be shot and was led out for execution. At this moment the guns of the executioners exploded, and the sound awoke the dreamer. It was clear now that a loud noise in an adjoining room had both produced the dream and awakened the dreamer almost at the same moment.

Bad dreams distress the man whose digestion is out of order. Constipation creates more dreams than are in the infernal regions. People who are troubled with constipation sleep badly and restlessly. Sometimes they cannot sleep at all, and when they do sleep, the dreams come. It doesn't take so very long to wear a man out with that sort of thing. He gets up in the morning feeling worse than he did when he went to bed. He is listless and without energy. The chances are he is dizzy, has "heartburn," palpitation, sees black spots before his eyes, has headache and is bilious. What nonsense it is to let a condition of that sort continue. Nine-tenths of all the sickness in the world comes from constipation and neglect of it. It is a simple thing to cure if you go about it right. It's a bad thing and a serious thing if you don't take the right medicine. Dr. Pierce's Pleasant Pellets are designed for the cure of constipation. The "Pellets" are tiny, sugar-coated granules. One is a laxative, two a mild cathartic. Everybody who has ever used them has a good word for them. They have prevented more serious illness than any other remedy ever sold. Druggists sell them, and an honest druggist will not try to sell you something else.

Dr. Pierce's Common Sense Medical Adviser is the greatest family doctor book ever published. It explains human physiology and the laws of life and health in plain scientific language. It has had a tremendous sale; 60,000 copies at \$1.50 each, bound in cloth. The present free edition is the same in all respects except that it is bound in strong manilla paper covers. A copy will be absolutely given away to anyone who sends 21 one-cent stamps to pay cost of mailing only, to World's Dispensary Medical Association, No. 663 Main Street, Buffalo, N. Y.

HATS OFF TO GENTLEMEN. What Did the Girls Mean by Their Remarks in the Elevator? They entered the elevator together. They were dressed alike. They wore felt hats and coats, not unlike the sack coats worn by men, which, open in front, disclosed waistcoats. A turndown collar was around the throat of each, with small black neckties. They didn't wear trousers or even bloomers, but their skirts were close fitting, and every man in the elevator knew instinctively that they were coveting the coverings which they had for their limbs. They wore their hair cut short.

When they entered, the men simply stared at them. No one ventured to remove his hat in accordance with the time honored custom which provides that in that way men should show their deference to the members of the opposite sex. Perhaps they were too surprised at the apparition. Perhaps they thought that the women, being unusually strong minded, would be vexed instead of pleased at the mark of politeness to a woman. There are such women, it is said, although very few persons have ever seen any of them.

Whatever might have been passing through the men's minds in the few seconds which the journey from top to bottom required, they were awakened from their reveries when one of the young women exclaimed in a loud voice: "Joan, why don't you take off your hat? Don't you see that we are in the presence of gentlemen?"

That remark served to cause every man in the car to turn red and white by turns. Every man's hand went instinctively to his hat, but all but one were quickly stopped. The exception removed his hat and was evidently embarrassed because he had unconsciously taken the hint.

But he took his revenge. In an ordinary tone of voice he remarked to another man: "It is so hard nowadays to tell men from women that I am not surprised at their mistake, nor at ours."

Some scathing retort might have been made, but just then the elevator stopped and every man rushed from the car whether it was his floor or not.—Chicago Times-Herald.

His veracity is unquestioned. You are reading local evidence. Investigating home testimony. East Liverpool news for East Liverpool people.

It's not from Maine or Michigan. Suspicion can't lurk around it. Honesty is its prominent characteristic. Home endorsement is its salient point. Can our readers want any better proof than that supplied by Mr. N. T. Ashbaugh, No. 324 Lincoln avenue, packer and shipper at the Knowles, Taylor & Knowles pottery. Read this: "I have had trouble with my kidneys that caused me quite a lot of misery, having a severe dull pain across the loins and soreness and lameness when I got out of bed in the morning. I have come down to the pottery when I could not get up, but went about bent over. I could not get up or down, for if I attempted either I was rewarded with a sharp twinge of pain and the kidney secretions were not right. One physician gave me three prescriptions at one time, but they did not do a bit of good. I read about Doan's Kidney Pills, got some at the W. & W. Pharmacy and have been cured. I can be found at the pottery during business hours. If any one should wish to ask me about Doan's Kidney Pills, I would give them my experience with pleasure."

Patent Office Profits. "So far there have been nearly 200 patents issued for horseshoes," observed a blacksmith. "Every one of them was supposed to have merit. A large number of them were supposed to be of value for the reason that they could be put on horses by bands or clamps and thus save time and the expense of horseshoers. Six thousand dollars, therefore, has been paid into the patent office by inventors of horseshoes."

"Not one of those inventions was ever used, and today, as during the past, horses are shod. The only shoe that can be put on a horse must be nailed on by a blacksmith. There is no royal road to wealth, and there is no way to shoe a horse except to nail on the shoe. This \$6,000 is but a small part of the money paid out in connection with patented horseshoes."—Washington Star.

Sardon's Hobby.

Sardon's hobby is building himself houses. In this way he delights in spending his wealth. On Mount Boron, on the outskirts of Nice, stands a huge erection of stone, dwarfing the surrounding villas, which is merely the foundation of a palatial residence which the eminent dramatist commenced, and after an expenditure of some \$200,000 was prevented from completing on the ground that the structure would interfere with the outlook of the fort perched on the hill behind.
